LAST NIGHT'S PROCEEDINGS. The Council met at the usual hour. R. C.

Bishop, President, in the chair.

THE MCMICKEN ESTATE.—A resolution wa resented by Mr. Runyan, for authorizing the City Solicitor to take such steps as may be necessary to prevent any person or person from leasing the Mansion House, on the Ham ilton Road, the property of the late Mr. McMicken. The resolution also authorized the City Solicitor to inquire on what or whose authority Mr. David S. Stille pretends to lease

the said premises. Resolution adopted.

HOOK AND LADDER CO. No. 1.—A resolution for increasing the wages of the members of this Company from \$8 a month to \$12 50-

presented by Mr. Davis—was adopted.
THE MIAMI CANAL.—Mr. Rule introduced memorial for presentation to the Legislature by the Council (adverse to the bill now before hat body), setting forth that the Miami Cana between Broadway and the River belongs to the State, and, therefore, the Legislature possess the power to surrender it. The memorial proceeded to show that the portion of the canal in question is of no special benefit to the citizens, as merchandise can be carried from the river to the level of the highest lock at a much less expense than through the canal; that the amount received from tolls is not sufficient to keep the canal in working order; and that the outlay of \$47,000, the estimated cost of repairs, would be a wasteful expenditure. After a recapitulation of all that has hitherto been said in favor of the surrender of the canal, as conin favor of the surrender of the canal, as conferring benefits upon the city and its inhabitants, it concluded by praying the Legislature to surrender the canal for sewerage and other purposes. The memorial was adopted as the memorial of the Council.

APPROPRIATIONS.—The sum of \$150 peas voted

for the satisfaction of a judgment against the city, obtained by Mrs. Lena McLean for damages to her property by the overflow of a gutter.

A similar sum was voted (\$65) for the payment of expenses incurred by the committee on Police and Prisons, in visiting Columbus on be-

half of the city, on two occasions. THE WHARFAGE ORDINANCE was called up by Mr. Kiersted. The Chair called for a suspen sion of the rules. Mr. Kiersted objected. A discussion followed, and eventually a vote was taken, which did not sustain the Chair,

Section 4, fixing the salary of the Wharf Register at \$500, was passed, after the rejec-tion of two amendments—one proposing to make the salary \$700 and the other \$800. Section 5, appointing the election of the Wharf-master to take place triennially, on the 1st Monday in April, and fixing his salary at

The other sections, regulating the duties of the above-named officers, and affixing penalties for offenses against the provisions of the ordinance, were under discussion when our reporter left.

PROBABLE MURDER-WOMAN BADLY BEATEN BY HER HUSBAND .- An individual, somewhat renowned, who lived a great many years ago, and who has said among many bad things a few good ones, remarks that "there is a time for all things." We doubt this-indeed, we are almost sure it can not be true; but assuming that it is; we will venture to affirm that this is the time to be bestial. One of the law-makers of our country shoots a colleague in the street, and the lower classes, all over the country who get their cue always from the higher, follow the example they have received from the seat of government. Revenge aroused, with lowering brows, stalks all abroad, while murder follows close in his footsteps; and, much as we regret it, we are almost every week comed to record the fact that another crime added to the already far too sanguinary record.

Yesterday a man named James McCallion, who resides on Eighth street, near the base of Mt. Adams, and whose wife for many years has patiently borne his abuse, went home very much intoxicated, fell upon her with a hatchet and beat her so severely that it is thought she can not survive. Her wounds were principally upon the head and face, and from what we could learn both must have been completely jellied. He was arrested and taken to the Hammond-street Station-house, and will probably have a hearing before His Honor Judge Pruden this morning.

Rumor, as in every case of this kind, eve since the above was written, has been telling be found patterns of goods which will doubtdifferent tales in regard to the condition of the woman. It was reported that she was dead, and again that she was speechless, and nowat one o'clock-that she would be likely to recover. We have no means of determining, at this late hour, the truth in regard to the matter, but sincerely hope, for his sake, that the crime of murder may not be added to the account already registered against this unfortu-

ACCIDENT AT THE TURNERS' HALL .- About nine o'clock, yesterday morning, the vicinity of Walnut and Allison streets was thrown into a considerable state of excitement by an accident that occurred at the Hall of the Turners, which is situated near the corner of the streets

above-named. The house is being torn down to make room for another and larger structure of the same nature, and some persons who were at work upon the upper story were precipitated, with a part of the floor, through the entire building to the ground. It appears that the beam which supported the joists of this story was very slight, and they, by becoming to a certain extent displaced, broke it, thus causing the accident.

Those who were at work above escaped being wounded, with the exception of a few slight scratches, although, when we think of the nature of their fall, this fact seems somewhat miraculous. But Jacob Diehl, superintendent of the workmen, and a man named John Jacger, who were standing immediately beneath the mass that fell, were injured quite seriously. Their wounds were principally upon the head, side and back, but none of them were of such a character as to render it at all probable that they will prove fatal.

MAN ALMOST KILLED BY A FALL OF EARTH. A man whose name we were unable to learn, was found about six o'clock yesterday, half buried in earth, at the summit of Mount Adams. It is supposed that he fell from one of those bluffs which have been left by the upposed to have gotten into the jail by being grading of the hill, a distance of eighteen or twenty feet. His appearance denoted that he was unfortunate in his habits, and that he had fallen while in a state of intoxication. It is thought he can not survive.
